SafeMoon

Change and Release Manager

22/Sep/2022 – 1/May/2023

- Successfully established a change and release system from the ground up, including creating processes such as CAB meetings and change approvals.
- Led a team of manual QA testers, overseeing their daily work and ensuring high-quality standards were met.
- Initiated the development of a testing automation department, creating the groundwork for future automation efforts.
- Collaborated with cross-functional teams to ensure smooth transitions and deployments, reducing downtime and increasing overall efficiency.
- Implemented best practices for software development lifecycle management, resulting in a streamlined release process and improved quality control.
- Developed training programs and documentation to educate employees on the new change and release processes, increasing understanding and adoption across the organization.
- Provided guidance and mentorship to team members, fostering a positive work environment and enabling professional growth.
- Actively participated in continuous improvement efforts, regularly assessing processes and procedures and recommending updates or changes as needed.

Self-Employed and Entrepreneur

Owner and Operator (Avahlee Med Spa and Utah Cabinet Coatings)

15/Nov/2017 – Current

- Integration automation of tasks across systems for employee productivity.
- System administrator for multiple enterprise software for company operations.
- Designed and engineered company infrastructure from website to internal communication system.
- Built processes for sourcing leads, consistent feedback/follow-up, project, and project completion to ensure timely capture of real-time information and direct the client through automation to fulfillment.
- Designed and automated workflow for both customers and staff based on variable outcomes to drive conversion.

Proofpoint

Professional Services Consultant

3/May/2013 – 15/Nov/2017

- Built automation scripts to retrieve and organize data from a previous database and provision it into the Proofpoint database structure.
- Implemented tagging automation to improve tracking and searchability of existing database-housed resources.
- Over 30 imports of enterprise customer emails into archives.

- Primarily implemented automation for enterprise-level customers.
- Process and technical documentation specialist.
- Designated subject matter expert for internal training.
- Security clearance for Government level data for the Bureau of Alcohol, Tabaco, Firearms, and Explosives (ATF).

NextPage (*Acquired by Proofpoint*)
